### RESPONSE:

The examiner has rejected all the claims because the disclosure is not enabling. With the exception of claims 313 thru 318, which are hereby cancelled, the applicant strongly disagrees with the examiner.

It is agreed ~~and~~ that many documents sent to the PTO by the applicant have apparently been received there but have

been at least temporarily misfiled or lost. To ~~assist~~ assist the examiner, a copy of the earlier transmitted schedule of claim references is enclosed. That recites the relevant enabling portion of text and diagrams for all claims 218 thru 348.

It is respectfully submitted that the following claims would be allowable if directed to main claim 220, rather than deleted claim 222: Claims 303, 306, 309, 312. With the above amendments, the examiner is respectfully requested to allow the latter four properly enabled claims.

The examiner has allowed certain <sup>dependent</sup> claims which he has examined to be enabled by the disclosure in text and diagrams.

Surely if an identically worded dependent claim is directed to another main claim, that identically worded dependent claim must be considered enabled also.

It is respectfully submitted that the examiners own precedent ~~has~~ <sup>has</sup> established that most of

the rejected claims are enabled and therefore allowable, as set out in the schedule below:
